Guide to video settings? | IP Cam Talk As for the scene, all those settings can enhance details of moving objects or objects at night. To recognise licence plate you need to have adequate "pixel per meter". I recommend 131 pixel/m for well lit areas and 260 pix/meter for night. Video Output Settings | PlayStation®4 User's Guide When you set up your PS4 system, you might need to configure the output for the HDMI OUT port. By default, this is set to automatically match the TV you connect. To configure settings yourself, select (Settings) > [Sound and Screen] > [Video Output Settings]. Fortnite BR | Best Controller Settings (Sensitivity Guide) I've put together this guide to help you find your ideal settings. Please share your sensitivity in the comments below and upvote those you agree with. Let's see what the census is.
